Coolrider: base camp

Too cool for school? One of the easiest boards to learn to windsurf on, the Cool Rider has graduated to the top of its class. This is the perfect board for resort beginners or anyone wanting to learn how to have fun!

The perfect balance of width and volume distribution make each of the 3 sizes very comfortable to sail. The dagger board setup can be easily added or removed giving versatility to beginners and intermediates. Center strap configuration makes sailing a breeze.

FEATURES:

- **AST construction, styro/fiberglass core**
- **Coolrider 160 now available with full or half pads**
- **3mm-4mm EVA deck for comfort and safety**
- **Integrated nose protector**
- **Coolrider 160 with centerfin**
Comes with an extra FR 36 fin and Plug Power Box
- **Coolrider 180 & 200 with 60cm adjustable dagger board**
- **Coolrider 180 & 200 with rail protection**
Rail rubber protection all around the board
